

Université de Neuchâtel

Faculty of Science

The University of Neuchâtel, Switzerland, invites applications for a position of

Full professor or assistant professor with tenure track in Geometry

Job description: The successful candidate will teach various courses at the Bachelor and Master's levels in mathematics, as well as in other curricula (full professor: 7h per week, assistant professor: 4h per week). The candidate is expected to establish an internationally recognized research program in geometry. He or she will supervise master's and doctoral theses and participate in the administrative tasks of the institute and the faculty. Courses are taught in French, requiring a commitment to obtain sufficient fluency in French within two years.

Requirements: PhD in mathematics, with internationally recognized research experience, fund-raising ability, solid teaching, mentoring experience and administrative skills.

Starting date: February 1st, 2025, or upon agreement.

Application deadline: March 15th 2024.

Applications should be uploaded onto www.unine.ch/candis (ref. FS-GEO-IMA) in the form of **a single PDF file**, including a letter of motivation, a CV containing lists of obtained research funding, documenting teaching and research experience, a list of publications, copies of diplomas and a list of three experts able to assess the candidate's competence. The candidate is also invited to present a statement (three pages max.) of teaching and research interests, his or her scientific approach to the domain, and projects that he or she intends to undertake at Neuchâtel.

Further information can be obtained by contacting the head of the hiring committee Prof. Elisa Gorla (elisa.gorla@unine.ch), as well as by visiting the Faculty website at www.unine.ch/sciences.

The University of Neuchâtel seeks to increase the proportion of female faculty members and en-courages women to apply.
